

RUSSIA FACES GRAVE CRISIS

Assembling Of First Douma May Mean Signal For General Outbreak In Districts.

WITTE HAS BEEN THE BIG BULWARK

Premier Has Stood Solid For The Government In The Face Of The Great Opposition Of The Masses.

SPECIAL TO THE GAZETTE
St. Petersburg, March 26.—The cause of reform in Russia is in grave peril. Triumph for the reactionaries is feared by high officials of the empire and the assembling of the douma will bring the crisis.

Count Witte is almost on the verge of a breakdown. He has been under constant strain since the Portsmouth conference, and the premier personally would have been glad to relinquish his difficult and thankless post long ago, but he has stuck to his desk, sometimes when so ill that a man of less power would have taken to his bed, as he had determined, if possible to see the emperor and the country through the crisis.

The guerrilla warfare which the revolutionists at present are conducting cannot succeed. Acts of terrorism, doubtless, will continue—vengeance may be wreaked upon governors-general and police masters; Count Witte, the premier, and Minister of the Interior Durnovo may be assassinated; banks and buildings may be blown up, and there may even be riots here and there—but attempts to produce widespread risings in the cities or a repetition of the railroad strike are doomed to failure.

Army Is Faithful.

No matter what is said to the contrary, it is certain that the army is faithful to the emperor. There may be individual cases of disloyalty, but the reliability of the army as a whole is unquestionable. The weight of troops alone renders revolution impossible.

It is not now a question of the fall of the government, but of whether reform or reaction will prevail—whether the present struggle to supplant the old regime and secure larger liberties for the people will enter the parliament phase or a counter-revolution will sweep away the entire programme on which the government has entered. The emperor is sincerely and honestly desirous of meeting the wishes of his people and has given them his word to this effect. But a reactionary party exists. It is composed of the

most important question, however, and the one on which the future of the country and its prosperity depends, is the adoption of some method for satisfying the land hunger of the peasants, who comprise 80 per cent of Russia's immense population. Instead of presenting a project the government would prefer to leave a solution of the question, if possible, to parliament.

AN EDGERTON ATTORNEY ON JUDICIAL SITUATION

Cannot Understand How His Name Appeared On Judge Sale's Nomination Papers.

Legal opinion relative to unsolicited testimony is that it is usually the strongest that can be possibly obtained. The following communication from Attorney J. P. Towne of Edgerton was received by mail in the Gazette office unsolicited. The letter is evidently written after mature deliberation by Mr. Towne and its import upon the judicial situation will greatly clarify the matter in the minds of many who have been informed that the members of the Rock County Bar association were practically unanimous for Judge Sale's election and the rejection of Judge Dunwiddie. The Gazette in announcing itself for Judge Dunwiddie stated at that time that it believed that Judge Dunwiddie was the logical candidate for the office and the only one that could possibly defeat Judge Grimm and thus retain the judgeship for Rock county. Since making this announcement facts have been brought to the notice of the public that verify this statement and the following letter from Mr. Towne, whose name it appears was placed upon the Judge Sale petition without his permission is just another vindication of the Gazette's stand in the judgeship matter. The letter is published by request and is as follows:

Edgerton, Wis., March 24, '06.

I enclose a brief statement which you are at liberty to publish. How my name came on Judge Sale's nomination paper I can't conceive. I only wish to correct such a fraudulent trick and therefore send you this statement. Yours, &c.,

J. P. TOWNE.

THE STATEMENT
Editor of Gazette: I am informed that my name appears on the printed list of names on Judge Sale's nomination papers. I have this to say: that, while I have the highest regard for Judge Sale, I never signed his nomination papers and never consented to have my name placed on them. I was solicited to sign his nomination paper, but refused to do so and did circulate for signatures Judge Dunwiddie's nomination paper and signed it. I believe the best interests of the public will be served by retaining the said judges in their present offices, and the public welfare is of the first concern in this matter.

Yours, &c.,

J. P. TOWNE.

Editor of Gazette: Yours will receive approximately forty per cent of their claims.

SPECIAL SESSION TO AMEND TEXAS PRIMARY LAWS

SPECIAL TO THE GAZETTE
Austin, Texas, March 26.—Pursuant to the call of Governor Lanham the Texas state legislature assembled in an extraordinary session today. The purpose of the session is to amend the general election law by providing means for determining definitely the voter which candidates for state and district offices shall receive in state and district political conventions, based upon the results of the primary elections held in the different counties of the state or of the district, as the case may be. The session is expected to be of short duration.

ANOTHER BOODLER SERVES HIS TIME

Third Convicted St. Louis Grafters Released from Prison After Two Years.

SPECIAL TO THE GAZETTE

Jefferson City, Mo., March 26.—The gates of the state penitentiary will be opened tomorrow for the release of another of the St. Louis boodlers. This is Henry Schnettler, whose two-year term, under the time allowed for good behavior, expires tonight. Edmund Borsch was the first one to get out, being liberated January 6, and two weeks later Charles J. Denny and Jerry Hannigan were freed. This leaves in the prison Harry Faulkner, whose term will expire next year; Emil Hartman, who was given a seventeen-year sentence, and Julius Lehman, given six years.

In March number of Good Housekeeping, in the department of "Pure Food Assurance," we find:

"Non-Such mixes meat, Morrell Soups, Co., Syracuse, a semi-moist condensed compound of meat, flour, and vegetables, and other products, boiled sliced and cut, without any other preservatives or adulterants; no artificial coloring produced under conditions as near to sanitary perfection as possible."

The product could not be bought at any price ought to satisfy the most exacting home-wife. The non of one million packages a month seems to prove the statement to be true. Your grocer sells Non-Such. Try it, and satisfy yourself. You are the one.

COST TO BE VERY SMALL

Compared to the vast amount of Farm Lands That Will Be Reclaimed from Waters.

(By Guy Elliott Mitchell.)

The man who can provide homes for industrious and strong-armed citizens is a benefactor to the race. If Representative Steenerson of Minnesota can push his swamp reclamation measure to enactment into law, he will be deserving of the praise of not only this but future generations. His bill is a practical extension of the old homestead idea, or rather, perhaps, an application to the vast areas of our swamp lands of the idea embodied in the national irrigation law.

There are in the neighborhood of 100,000,000 acres of swamp-lands in the United States, some 70,000,000 of which have been surveyed, and the great bulk would make splendid farms if the excess of water were drained off.

The Steenerson bill provides for the beginning of the work of reclamation of these huge areas. The measure is framed after the irrigation law; it provides that the receipts from the sales of public lands in the non-irrigation states shall constitute a "drainage" fund to be expended by the government in great drainage works, and further, that the cost of such drainage shall be pro-rated among the land benefited and paid back by the settlers into the "fund," to be used over again for additional reclamation work.

"Everything is impossible until we see a success." Your own business is probably bigger now than you thought "possible" before you became a shrewd (which means a "large") advertiser.

Vote for every republican supervisor nominated.

There is nothing to it in the third ward. Watt is the same as elected.

It takes politics to develop how small the calibre of some men in public life really are.

That new council will have many questions of importance to decide when they finally get together.

Republicans should not fail to remember that H. L. Maxfield is the republican nominee for city attorney and vote for him.

Merrill is the candidate for alderman in the first ward on the republican ticket. Duly nominated and now should be duly elected.

In the Second George Buchholz is candidate for alderman on the republican ticket. Vote for him and secure a good alderman.

In the fourth ward Harry Carter wants all the votes he can get to defeat Sheridan the democratic candidate.

This talk of organizing a "reform republican" club has not been forgotten and the "reformers" will soon get busy after the judicial fight is over.

There is no doubt in the minds of many that the judicial situation will lose the judgeship for Rock county. They are mistaken. Dunwiddie can save the day if you vote for him.

Personal feeling has been engendered into the present judicial situation which should not be. A judicial election should not be for the furthering of personal achievements but rather for the selection of the best man possible for the place.

Attorney Bushnell is one of the most prominent candidates for the judicial bench now before the people for election. He has the endorsement of a large number of the attorneys throughout the state and is warmly supported by the laymen as well.

C. D. Rosa of Beloit, aspirant for the office of Judge of Beloit municipal court is strongly endorsed by the residents of Beloit and as the whole country has to vote on his election the general public should take the endorsement of the neighbors of the candidate. Those who have summered and wintered him as it were.

TRADE WITH EUROPE.

Europe takes two-thirds of the exports of the United States and supplies practically one-half of the imports. This statement summarizes in a single sentence the general facts which have been developed by a series of discussions of the trade of the United States with the countries of Europe recently presented by the Department of Commerce and Labor through its Bureau of Statistics. These discussions have presented an analysis of the trade with each country of Europe by principal articles, and when summarized show that Europe takes more than a billion dollars' worth of the exports from the United States, with all other parts of the world take a little less than a half billion dollars' worth. In no year since 1899 has the value of exports to Europe fallen below 1 billion dollars, while that to all other countries has never touched the 500 million dollar mark. Prior to 1900 the exports to Europe had never been as much as 1 billion dollars in value; in that year they crossed the billion-dollar line, being 1,040 millions, and have since that time averaged about 1,050 millions per annum. In 1890 the exports to all section of the world other than Europe were 354 million dollars in value, but have grown year by year until in 1904 they were 498 millions, the growth since 1900 in exports to the non-European countries having been proportionately greater than that to Europe.

LEGAL OPINIONS.

The claim has been made that the attorneys of the Rock county bar are acting as a practical unit as regards the judicial situation. On Friday and Saturday last, the Gazette published two communications from two attorneys practicing before the bar at the present time, Edward Ryan and Bernard M. Palmer, and one to-day from Mr. Towne of Ed-

gerton. These gentlemen disproved this statement most emphatically. There are other attorneys whose names appear on the list of supporters of Judge Sale who have expressed the same sentiment and explained the appearance of their names on Judge Sale's petition in the same manner. For reasons of legal business they decline to allow their names to be used but have come personally to Judge Dunwiddie's friends, and expressed their hope of his election. As has been stated before in these columns Judge Sale has our greatest admiration as a man and as a judge. The present situation is doubtless not deplored by anyone more than by him. Personal partisan politics are out of place in a judicial campaign. The judiciary should be above the plane of mere politics. It should be held as a sacred trust of the people not to be handed hither and yon at the solicitation of any coterie of men. Judge Dunwiddie stands before the people seeking re-election upon his record. He is backed by conservative men of the county and in his election the voters can be sure they will be playing no faction who seek to control judicial affairs.

ROSE TO THE OCCASION.

President Roosevelt's address to the delegation from the American Federation of Labor was strong, fair and directly to the point. He upheld the right of injunction to be used—not abused—by the courts in preventing wrongs, and to be employed impartially against labor unions and corporations, whenever either combination needed such a check. He showed the utter folly of applying the eight-hour law to labor on the Panama canal, and in regard to the restriction of the Chinese immigration, while he favored the continued prohibition of coolie labor, he announced his policy of extending every facility to Chinese merchants and students visiting our country for trade or instruction or travel.

Nothing could be better than this, and if Mr. Gompers and his associates in the Federation of Labor take offense at his words, so much the worse for them. Public opinion will sustain the President.

President Roosevelt makes mistakes like everybody else—mistakes that in his case are usually the result of sudden impulse, like his fulsome dispatch of congratulation to Gen. Wood;—but when any great occasion confronts him, the President has a habit of rising to it superbly and of saying and doing just the right thing.

CANNOT AFFORD IT.

A military necessity confronts Germany in the matter of tariff rates and regulations. Can the German government afford to put an almost prohibitive duty on American foodstuffs at a time when the empire is not unlikely to be involved in a great war? says the Newark Advertiser. The German Protectionists and agrarians talk of "much bluster," but the government looks ahead and counts the possibilities and the cost. If Germany should be plunged into war with France she would urgently need American meats, cereals and canned goods. A multitude of men would be withdrawn from agriculture and become mere consumers. The armies would need provisioning on a large scale, and American canned beef and other prepared condiments would be in a demand. A nation at war does not wisely cut off its food supply or make laws to increase the cost of food for the people.

POLITICAL

In March next year the terms of the following senators expire:

Berry (D.) of Arkansas. Will have to fight.

Blackburn (D.) of Kentucky. Already defeated by another democrat.

Burnham (R.) of New Hampshire. Re-election probable.

Burton (R.) of Kansas. Now under indictment.

Carmack (D.) of Tennessee. On the anxious seat.

Clark (D.) of Montana. Just as he wishes.

Crane (R.) of Massachusetts. Sure of re-election.

Cullom (R.) of Illinois. Anxious about health and politics.

Dolliver (R.) of Iowa. Anxious.

Governor Cummings is believed to have an eye on the seat.

Dryden (R.) of New Jersey. Not certain, but not uneasy.

Dubois (D.) of Idaho. Possibility of state may go republican.

Elkins (R.) of West Virginia. Hard fight ahead, but may win out.

Foster (D.) of Louisiana. Reasonably sure.

Frye (R.) of Maine. Sure of re-election.

Gamble (R.) of South Dakota. Other after his seat and he may lose it.

Gearin (D.) of Oregon. Recently appointed. Defeat not unlikely.

McLaurin (D.) of Mississippi. Already re-elected.

Marlin (D.) of Virginia. Already re-elected.

Millard (R.) of Nebraska. Desires re-election but chances not bright.

Morgan (D.) of Alabama. Sure of re-election.

WHY YOU SHOULD VOTE FOR JUDGE DUNWIDDIE

A Just Opinion

Judge Dunwiddie, although a Green county boy, has, in his later and more active legal life, been a citizen of Janesville, where he has forged ahead and made a good reputation as a man, lawyer and a judge. He is a man respected by all who know him, and he is equally well known in all three counties as a public official; albeit, he may not be as popular as either of the others. A circuit judge never is so popular after he has served eight or ten years.—Monroe Sentinel.

Judge Becker's Opinion

Judge John M. Becker in an interview with a reporter of the Monroe Sentinel had the following to say regarding some methods of campaigning which he has been informed are being used by certain of his opponents in the race for the circuit judgeship:

"I am free to say that Judge B. F. Dunwiddie is conducting a clean, honorable and dignified campaign; he is not pretending to one class of people that he is a democrat and to another class that he is a republican. He has not got a half dozen, more or less, attorneys touring the district in the interest of his candidacy with an assorts of stories, excuses and sympathetic appeals."

Impartial Judges

There are hundreds of farmers and other citizens, distributed throughout this judicial circuit, who have sat as jurors or been witnesses in Judge Dunwiddie's court and know, how ably, impartially and expeditiously he has conducted court. No "monkey business" goes with Judge Dunwiddie and the lawyers know it. Defendants in criminal actions and clients in civil suits get fair and impartial show. Witnesses are protected, and not permitted to be browbeaten by the opposing counsel, on to be made out as lies by petty-fogging attorneys.

No judge has ever sat on the bench of the Twelfth judicial circuit who has conducted the court proceedings in a more able and impartial manner than has Judge Dunwiddie and now in the prime of life, at the height of years of mental training and with the experience of seven years' continuous service on the bench, with a record unequalled by few of the circuit judges in the state, is the circuit to be deprived of the services of such a man at the behest of a coterie of lawyers, working for their personal interests, and be relegated to private life to make room for some one who aspires to the position principally from political and mercenary motives? No. The Journal has more confidence in the electors of the circuit, confidence in their good judgment, to select the logical, non-partisan and best competent man from any standpoint.

FOOTLIGHT FLASHES

OLD WAR HORSES AT WHEELER MEMORIAL

Many Distinguished Men of Civil War Will Be Present and Speak at Services.

[SPECIAL TO THE GAZETTE]

Atlanta, Ga., March 26.—The preparations completed for the memorial to General Joseph Wheeler, together with the number of distinguished visitors already arrived in the city, to take part in the affair, indicate that the early expectations of the local committee regarding the scope and interest of the memorial will be exceeded. The exercises will be held tomorrow afternoon in the Grand opera house, which is being appropriately decorated for the occasion. The program will include as speakers: General Bennett H. Young, commander of the Kentucky division, United Confederate Veterans; as orator of the day: "Corporal" James Tanner, commander-in-chief of the Grand Army of the Republic; General Stephen D. Lee, commander-in-chief of the United Confederate Veterans; General Julian S. Carr of North Carolina, commander-in-chief of the Blue and Gray; Major Charles R. Miller, of Cleveland, commander-in-chief of the Spanish War Veterans; Col. Thomas M. Owen of Alabama, commander-in-chief of the Sons of Confederate Veterans, and Governor Joseph M. Terrell of Georgia. A majority of the speakers are already in the city, together with the advance guard of veterans of both North and South come to attend the reunion of the Blue and Gray, which begins Wednesday. Other notable visitors whose presence is counted upon are the governors of North Carolina, South Carolina, Alabama, Louisiana and Florida, accompanied by their staffs.

Preparing for the Future.

E. W. Howe, in *Atchison Globe*: The old wolf who acted as our guide at Delhi told me that as dead bodies of the rich Hindus are burned with sandalwood at an expense of \$200. The cheap wood necessary to burn the body of a poor man costs about \$2.50. The old guide is a Brahmin or high-caste Hindu, and every year he buys a little sandalwood and places it in his gowdham. This wood will be used to burn his body when he dies.

Time For Pros. to Reflect.

Evening Wisconsin: The decision of the University of Wisconsin to make no indoor meet on Saturday constitutes a strong protest against the no-coach proposition of the faculty. The athletes feel that they would have small chances at Ann Arbor without coaching, and as participation would add a year to their records, even were they to take part in future events of this season, they have decided to save the year in addition to avoiding defeat. The faculty of the university should take a look at things from the practical side, and endeavor to readjust the regulations on a compromise basis.

Something in this Argument.

Appleton Post: Indeed, it would have been a good thing for the country if there had never been a tariff placed on lumber. The effect of it has been to put a premium on the slashing down of American forests within the least possible time, the building up of a comparatively few

colossal fortunes; the abandonment of lands cut over by the owners for the taxes and a stupendous waste of lumber materials. Now the government contemplates expending millions of moneys for the rehabilitation of these forests. The least that it can do towards supplementing these efforts is to safeguard what little there is of them left, so far as knocking off the tariff on lumber will serve this purpose.

Men Lengthened by Long Winters.

Mariette Eagle-Star: It has been shown by actual measurements at the Wisconsin university, that the young men students belonging to this great and favored state are taller and of finer physical build than the ones coming from any other state. This is a matter of congratulation. It is good to have strong, healthy young men, as such are needed to continue the work of the commonwealth. As to the direct cause of this supremacy there seems to be some doubt, but it is possible the extra height is obtained by the necessity for the boys to swim their way through the gulf and thence carry their cargoes to the markets of the world; Congressman Martin B. Madden of Illinois sees the middle west thrashing with a new life—its industries increased on every hand and the manufacturing center of the United States transplanted to the Mississippi valley.

Washington, D. C., March 26.—In the not distant future when ships of the big seas load with grain, and other products of the interior of the country at the port of Chicago, and traversing the drainage canal and the father of waters, plow their way through the gulf and thence carry their cargoes to the markets of the world; Congress-man Martin B. Madden of Illinois sees the middle west thrashing with a new life—its industries increased on every hand and the manufacturing center of the United States transplanted to the Mississippi valley.

Distribution of Benefit.

"But these states alone will not reap all the benefit. The whole Mississippi Valley, with an area of 135,000 square miles, will be affected. The

Mississippi and its branches form the boundary lines of twenty-one states, and the eastern mountain states that now send their products for export to Pacific ports over the mountains would find it cheaper to send them eastward and southward, because it is apparent that it will cost less to transport freight down hill, as it were than across the mountain ranges."

Mr. Madden has gathered elaborate figures to prove

of Milton came to Janesville this week to have a specialist attend to her teeth.

She says that Dr. Richards (who is doing her dental work) really does do painless work.

She affirms that he cut off a tooth, took out a live nerve and fitted on a porcelain crown for her all without hurting her.

And that he is **SUCCESSFUL** in his claims to painless work.

TAPS SOONED FOR STEPHEN A. CAREY

Old Resident of Janesville and Soldier of the Civil War Died at Waupaca Home Sunday Morning.

Stephen A. Carey, a former resident of Janesville and one of the noblest men whom Rock county sent to the front in the days of the Civil War, quietly breathed his last at the Wisconsin Veterans' Home at Waupaca yesterday morning. For fifteen years he had been partially paralyzed as the result of a shot through one of his shoulders sustained while going over the enemy's fortifications at the battle of Bald Hill, and during the eight years which elapsed after his removal from Janesville he was almost helpless.

Decceased was seventy-two years of age. He was married in 1864 to Sarah J. Burdick of Afton, who died in 1897. There were four children, one of whom died in infancy. The eldest daughter, Flora, passed away in 1928. The two surviving are Charles A. Carey of the regular army, who is stationed at Fort Bayard, New Mexico, and Clara M. Carey, who at the time of his removal left Janesville and secured employment in Wanapum that she might be near her father.

Stephen A. Carey's services during the War of the Rebellion were with Co. F of the 16th Wisconsin Infantry. He took part in the battles of Big Shanty, Kennesaw Mountain, Nickajack Creek, and Bald Hill, and after being disabled in the last named engagement, returned to his regiment subsequent to the fall of Atlanta in time to participate in Sherman's famous march to the sea. Of Company F which was composed almost entirely of Rock county men, 110 in the ranks, only five are now living in this section of Wisconsin and the whereabouts of others who may be in the land of the living are, with one of two exceptions, unknown. After returning to Janesville Mr. Carey followed the vocation of a carpenter for some years.

The remains will arrive in this city at 8:25 Tuesday evening and the funeral will be from the G. A. R. hall on 9:30 Wednesday morning. Interment will be made at the Afton cemetery.

Mrs. Isabelle Thorpe

Mrs. Isabelle Thorpe passed away shortly after nine o'clock this morning at her home, 6 Oakland avenue, after a long illness. The deceased was born in Paupac, Pike county, Pa., April 7, 1841, and came to Rock county at the age of eighteen. She was married to Gilbert Thorpe, who preceded her to the grave ten years ago.

There are left to mourn her demise two daughters and one son—Mrs. G. W. Catlin of Chicago, A. N. Thorpe of Milton Junction and Miss Esther Thorpe of this city. Mrs. Thorpe was well known here and in Milton Junction and those who will be pained to learn of her death are many. Short funeral rites will be held at half past twelve Wednesday noon at the home and the remains will be taken overland to Milton Junction, where services will be conducted in the Methodist Episcopal church at two o'clock.

Mrs. Mathew Ryan

After an illness with heart disease

extending over a period of three years

Mrs. Mathew Ryan of Milwaukee, nee Lillian Micha of this city, passed away of heart trouble at the home of her sister, Mrs. George Perkins, on West Milwaukee street at half past four o'clock Saturday afternoon. Mrs. Ryan was but twenty-three years of age and besides her husband and mother she leaves three brothers and three sisters, all residents of Janesville, to mourn her loss. The sisters and brothers are Mrs. George Perkins, Mrs. William Mehlrich, Clarence Micha, Clayton Micha and Henry Micha. Funeral services will be held from the home to St. Mary's church at nine o'clock tomorrow morning.

Mrs. Julia Slosson

All that is mortal of the late Mrs.

Julia Slosson of Milwaukee was brought here over the North-Western road at 12:30 this noon and taken to Mount Olivet cemetery for burial. Eighteen members of Division 405, Brotherhood of Locomotive Engineers and their wives accompanied the remains. Mr. Slosson having been an engineer on the North-Western.

Those who served as pallbearers were Amos Klingsmith and Joseph Newell, engineers from Milwaukee; and William Gagan and Edward McDermott of this city.

F. C. Johnson

The remains of the late F. C. John-

son of Milwaukee, who was injured in a runaway accident and died Friday of a cerebral thrombosis, were taken to Hillside this morning, where funeral services and interment took place today. A brother of the deceased resides near that place.

Death Of Child.

The infant daughter of Mr. and Mrs.

Charles Frost died yesterday morn-

ing at the home of its parents 337 Center street. The funeral was held this afternoon, Rev. W. W. Wertz officiating.

Scratching of a Match Responsible

To the Electors of the City of Janesville, Wisconsin:

Information to Voters in Regard to the Election to Be Held on April 3, 1906.

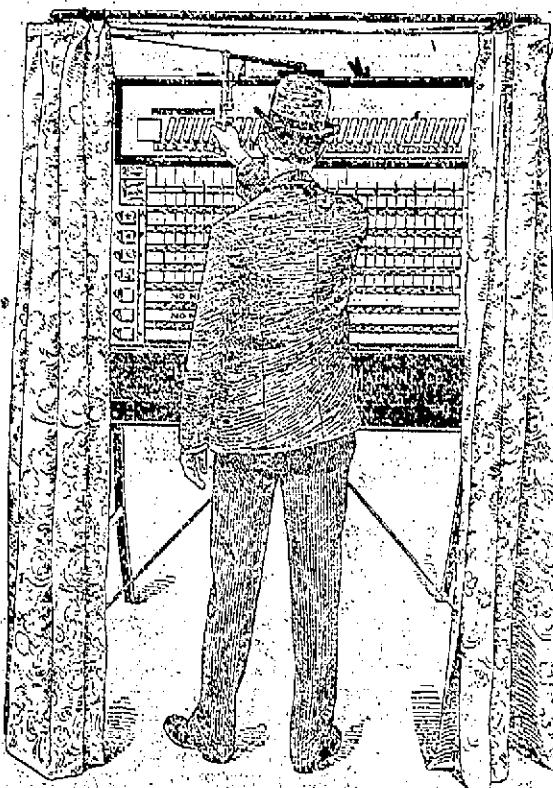

OFFICE OF CITY CLERK, March 26, 1906.

DIRECTIONS FOR VOTING ON THE VOTING MACHINE: 1st. Close the curtain. 2d. Pull the Yellow Lever having on it the names of your political party over to the right until the Bell rings. (This will turn down the Pointers over the names of the candidates in your party.) 3d. If you wish to vote a Straight Party Ticket, leave the Pointers as they are (down, in their voting position). But if you wish to "split" or "scratch" your ticket, turn Up the Pointer over the name of the candidate you wish to vote for for that office, and leave it there. (As these are non-partisan officers, they must each be voted for individually, as their Pointers are not turned down by the pulling of the Party Levers.) 4th. Open the curtain. NOTE—unless you are sure that you know just how to operate the machine, it would be well for you to practice on some machine before election day.

1 HOW TO VOTE ON THE U. S. STANDARD VOTING MACHINE.

Move the Red Handle of the Curtain Lever to the right as far as it will go.

This will close the Curtain around you, and unlock the machine for voting.

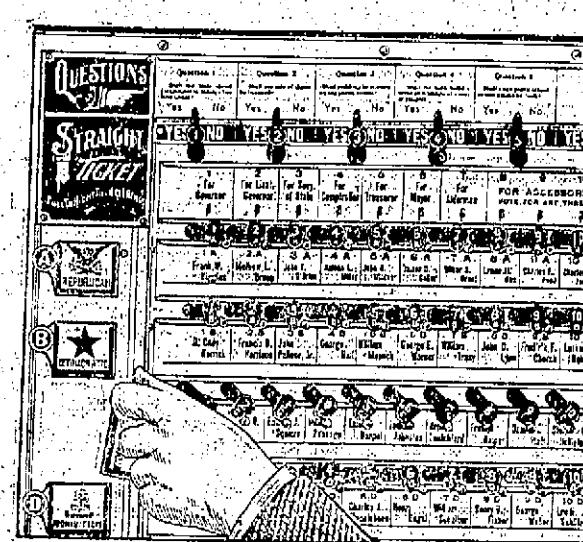

VOTER ABOUT TO CLOSE THE CURTAIN.

2 HOW TO VOTE A STRAIGHT TICKET.

Having closed the Curtain—Pull the Party Lever bearing the name or emblem of your Party over to the right UNTIL THE BELL RINGS, and then let it go back. This turns down to a voting position all of the Pointers of the candidates of your party.

The ringing of the bell signifies that the Party Lever has been pulled far enough to unlock the Curtain Lever and engage the registering mechanism.

VOTER PULLING OVER PARTY LEVER.

The turned down Pointers indicate the names of the candidates for whom the vote will be cast.

Leave the Pointers as they are (down in a voting position).

Move the Red Handle of the Curtain Lever to the left as far as it will go.

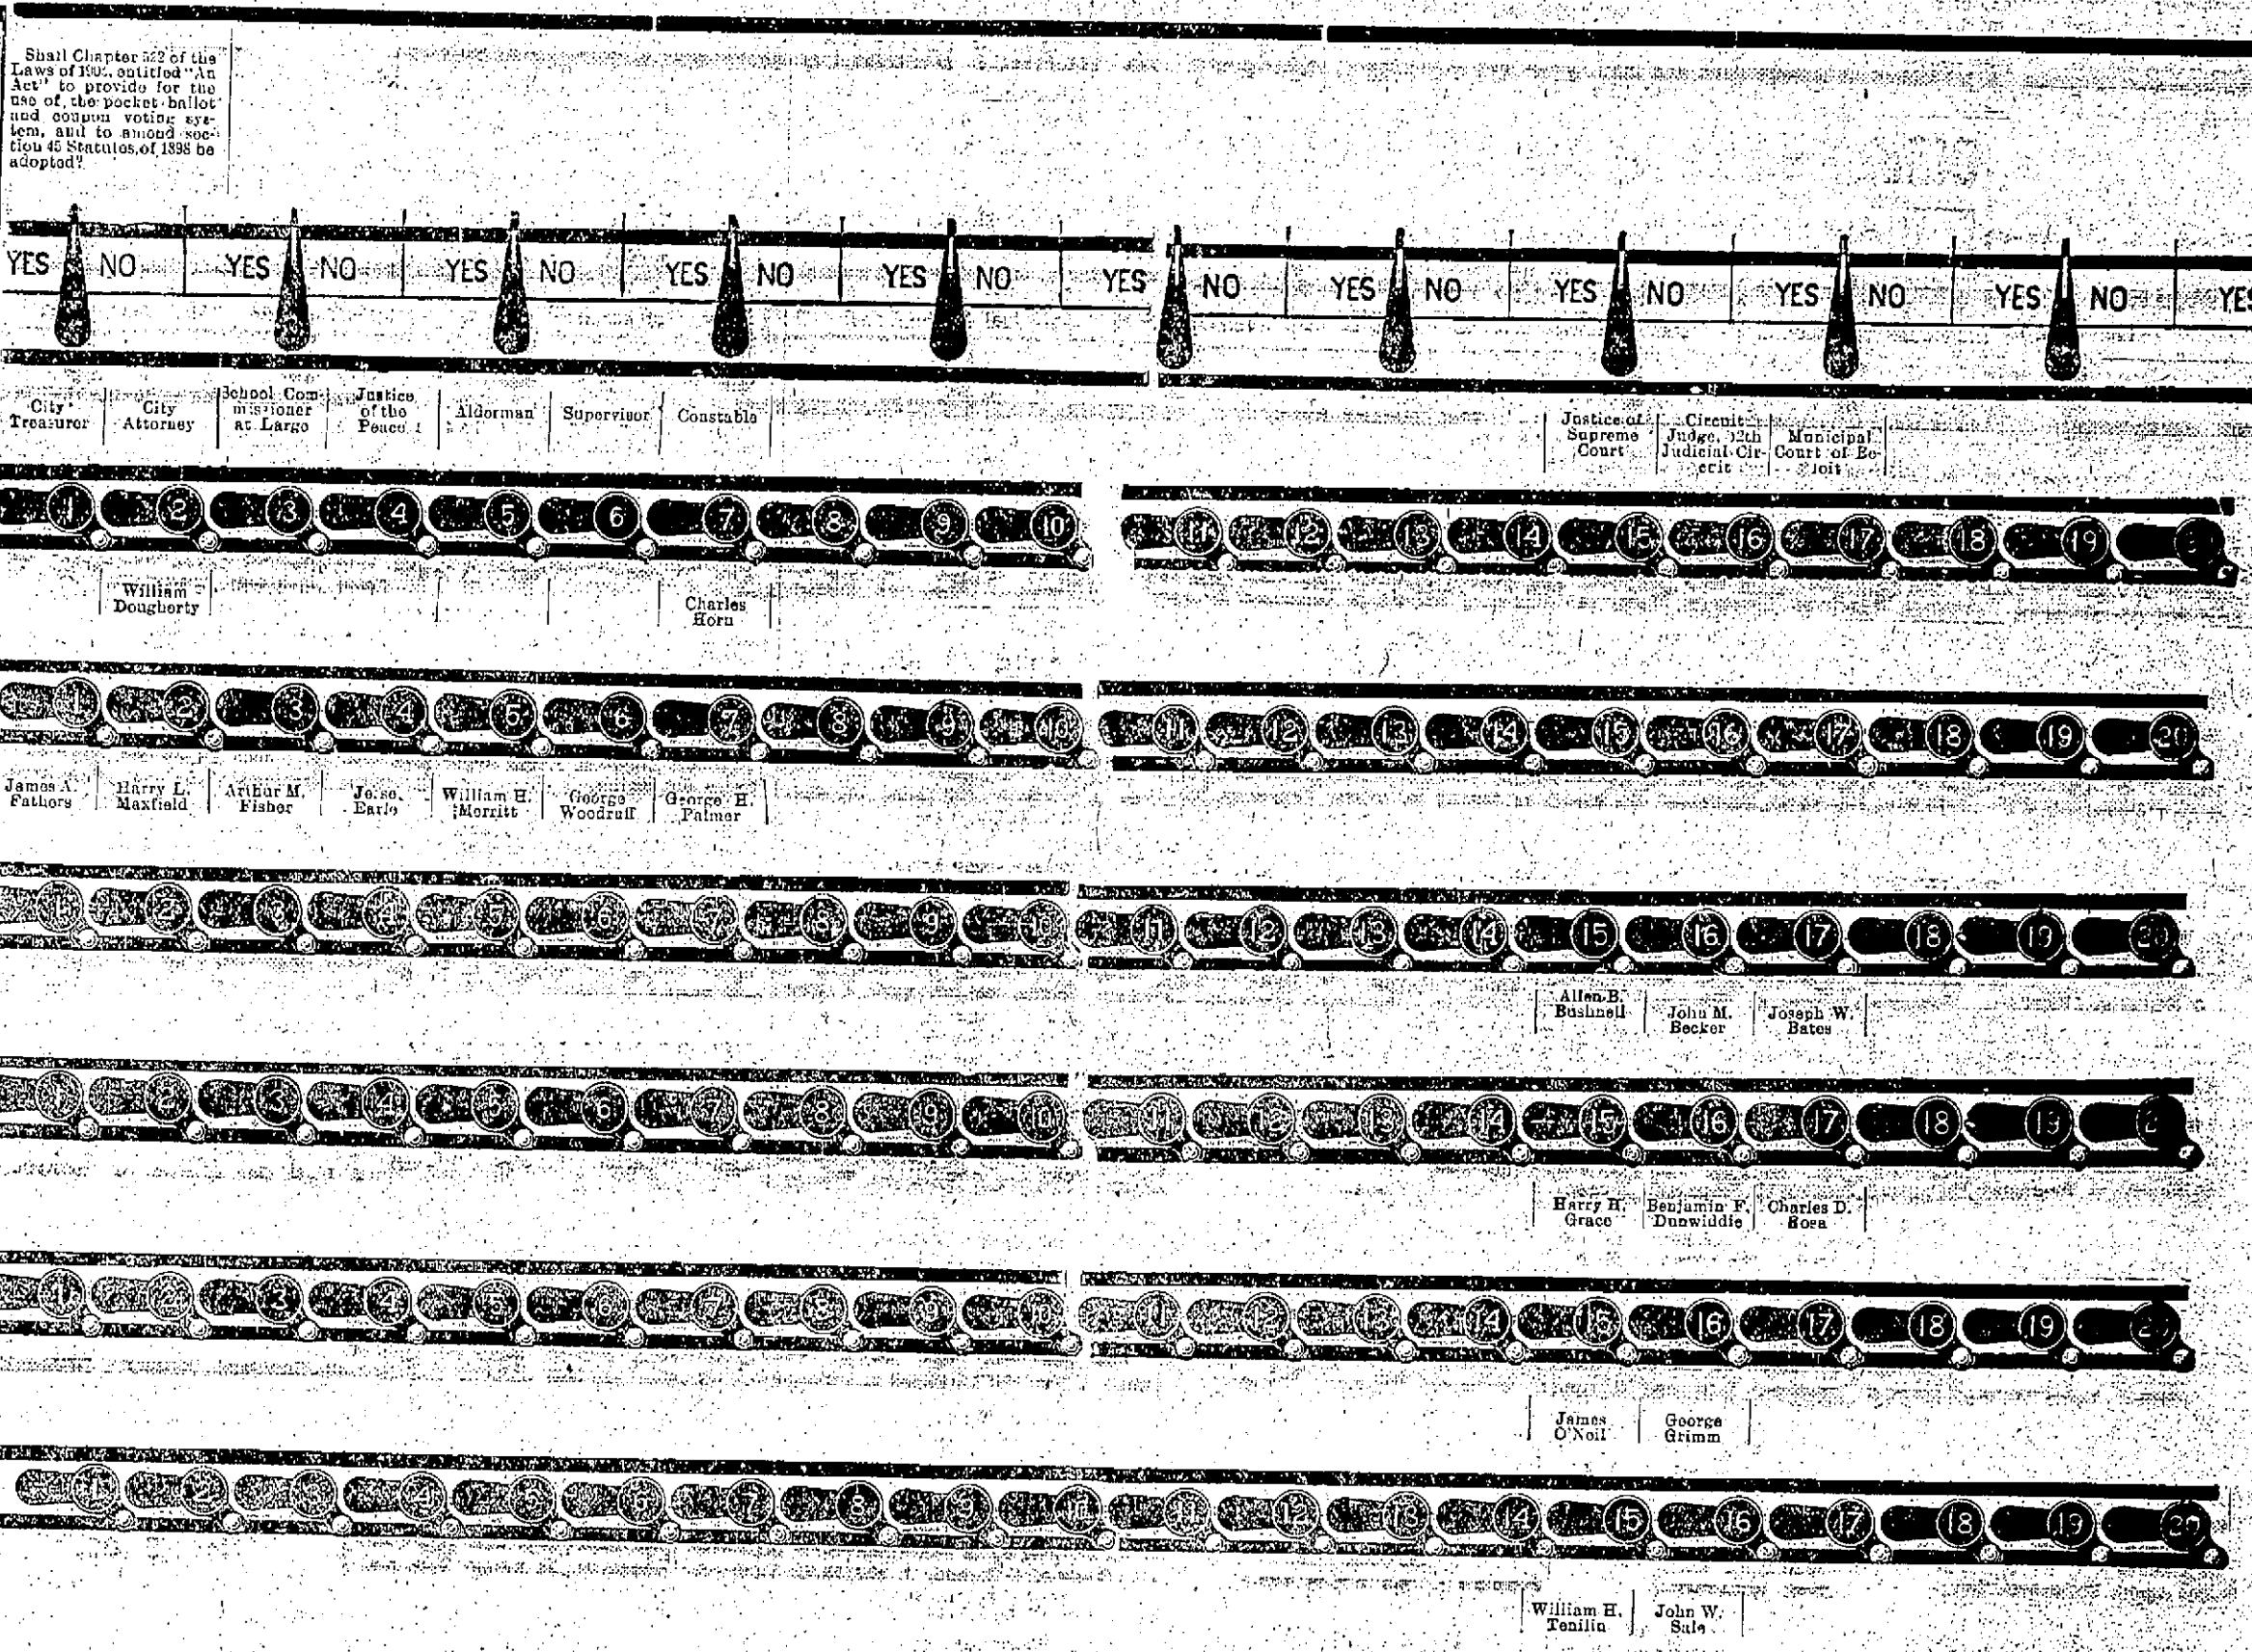

This will count your vote, open the Curtain, and set the machine for the next voter.

4 HOW TO VOTE ON QUESTIONS.

To vote Yes, turn the Question Pointer to the word Yes, and leave it there. To vote No, turn the Question Pointer to the word No, and leave it there.

It is claimed by Mohammedans that their prophet Mohammed was an inspired man, as he asserted that the Koran—the Mohammedan Bible—was revealed to him by the Angel Gabriel during a period of twenty-three years.

A writer has described the common black snake as the most pugnacious of all the reptile family. "He is always ready for a fight," he said, "and the man who doesn't understand his style of fighting will do well to apologize before the first blow is struck." A large number of the snakes in the Worcester farm are Florida rattlers caught by Mr. Brownell within the last three years.

One of the strangest cases of kleptomania ever brought to light was heard of in Paris. A certain woman had such a passion for smoking and for coloring "meerschaum" pipes, that she had been for a long time stealing pipes of this description from shops. In the flat which she occupied there was found no fewer than 2,600 pipes, not one of which it is believed, she had paid for.

Gazette want ads bring results.

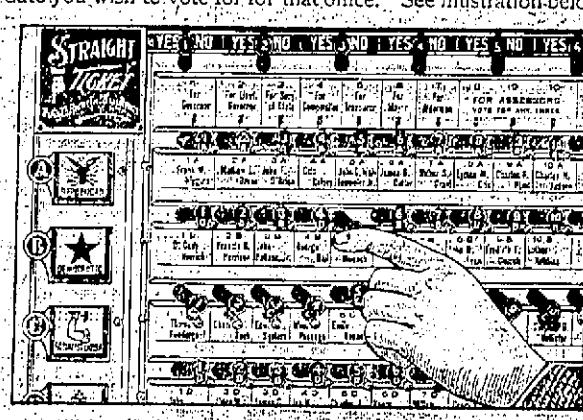

3 HOW TO VOTE A SPLIT TICKET.

Having closed the Curtain—Pull the Party Lever bearing the name or emblem of your Party over to the right UNTIL THE BELL RINGS, and then let it go back. This turns down to a voting position all of the Pointers of the candidates of your party.

Turn back (up) the Pointer from over the name of the candidate you wish to cut. See illustration below.

And then turn down a Pointer over the name of the candidate you wish to vote for for that office. See illustration below.

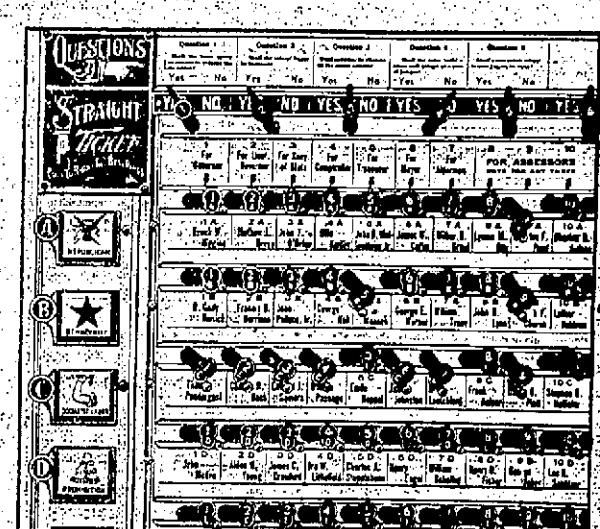

Be sure to complete each Split before making another.

For an office to which two or more candidates are to be elected, the required number of candidates can be voted for, and no more, regardless of position.

After the vote is arranged, move the Red Handle of the Curtain Lever to the left as far as it will go. This will count one vote for every candidate that has a Pointer left down over his name.

4 HOW TO VOTE ON QUESTIONS.

To vote Yes, turn the Question Pointer to the word Yes, and leave it there. To vote No, turn the Question Pointer to the word No, and leave it there.

THE ABOVE CUT SHOWS

That the voter has voted Party Lever "C" and then Split his vote for Treasurer, on Column 5.

That he has voted for Assessors, voting for three on Column 9 (for which office he is permitted to vote for any three candidates on either of the Columns 8, 9, and 10).

That he has voted "Yes" on Questions 1 and 2.

That he has not voted on Questions 3 and 4.

That he has voted "No" on Question 4.

If the voter desires, he may make any further changes while the Curtain remains closed, as the vote is not registered until the Curtain is opened.

The Pointers must be left down over the names to be voted for. If the voter turns them back, the vote will not be counted, as the opening of the Curtain turns back the Pointers and counts the vote.

The candidates on the City Ticket will be in the same position on each machine in the several wards.

ELECTION NOTICE.

OFFICE OF COUNTY CLERK,

March 26, 1906.

To the Electors of Rock County:

Notice is hereby given that a judicial election is to be held in the several towns, wards, and election precincts in the county of Rock, on the 3rd day of April, 1906, at which the officers named below are to be chosen. The name of the candidate for each office to be voted for, whose nominations have been certified to this office and under the appropriate party or other designation, each in its proper column and the questions submitted to vote are stated below:

INFORMATION TO VOTERS.

The following instructions are given for the information and guidance of voters: A voter upon entering the polling place, and giving his name and residence, will receive a ballot from the ballot clerk, which must have endorsed thereon the names, initials of both ballot clerks, and no other ballot can be used. Upon receiving this ballot, the voter must retire alone to a booth or compartment, and prepare the same for voting. A ballot clerk may inform the voter as to the proper manner of marking a ballot, but he must not advise or indicate any manner whom to vote for. If a voter wishes to vote for some of the candidates of different political parties, he should make a cross mark under the name of each candidate he desires to vote for, or at any place within the space in which the name is printed. If he wishes to vote for a person for a certain office, whose name is not on the ballot, he must write the name in the blank space under the printed name of the candidate for the office. The ballot should not be marked in any other manner. If the ballot be spoiled it must be returned to the ballot clerk who must issue another in its stead, but not more than three in all, to any voter. Five minutes time is allowed in booth to mark ballot. Unofficial ballots or memorandum to assist the voter in marking the ballot can be taken into the booth and may be used to copy from. The ballot must not be shown so that any person can see how it has been marked by the voter. After it is marked, it should be folded so that the inside cannot be seen, but so that the printed endorsements and signatures of the ballot clerks on the outside may be seen. Then the voter should pass out of the booth, or compartment, give his name to the inspector in charge of the ballot box, hand him his ballot to be placed in the box and pass out of the voting place. A voter who declares to the presiding officer that he is unable to read, or that by reason of physical disability he is unable to mark his ballot, can have assistance of one or two election officers in marking the same to be chosen by the voter, and if he declares that he is totally blind, he may be assisted by any person chosen by him from among the legal voters of the county. The presiding officer may administer an oath, in his discretion, as to such person's disability. The party designations and candidates for the different offices are, for example, as follows:

Official Ballot for Judicial Election.

—FORTY YEARS AGO—

New Secret Order.

One of the prosperous farmers of Ethan, N. H., was informed by his hired man that in the town of Canaan there was a secret order which had a large membership and was very prosperous, and hearing such a glowing account he inquired the name of the order. The young man replied that he was not quite certain, but believed that it was "Knights of Paralytic."

Free Scores of Operas.

A German inventor has perfected an apparatus which, by easy manipulation, throws the words of an opera being sung on to the proscenium above the stage. The words appear line by line as they are sung, and there is nothing about it to distract the spectators. The apparatus is controlled by the prompter, and is stated to be quite cheap.

Paper Manufacturing. Few persons have any idea of the immense amount of money handled by paper manufacturers, and of the vast profits they realize. It is said that S. T. Merrill, of the Rock River Paper Company, at Beloit, cleared over \$60,000 last year. And the most of it comes out of the newspaper publishers.

Word comes from England that all the ships leaving Liverpool for this country are filled with emigrants, and that emigration to the United States will be enormous this year—greater than ever before.

The Flag of the Free Fenians. The standard of the Irish Republic is described as follows: A white harp on a green field; thirteen lateral stripes, seven red and six white. The difference between the Fenian flag and the United States flag is in the substitution of a harp for the thirty-six stars.

Rurik the Roidsen, or Ourasian, a daring sea rover, landed in 882 on the Russian shore of the Baltic with his brothers, Sineus and Truwer. He subjugated the country from Novgorod to the Volga, and his followers were called Roidsen, or Russians; Roderick, in the Scandinavian tongue of the period, meaning warships. Rurik died in 879. The Russian warship Rurik, it will be remembered, went down off Sakhala last summer.

Origin of Russians.

"When he goes to a Liberal meeting he is a Liberal; and when he goes to a Tory meeting he is a Tory," said a voter's wife to a canvasser. "But," queried the canvasser, "what is he when he is at home?" and the lady gave the unexpected reply: "When he is at home he is a nuisance."—London Mail.

Immense Southern Swamps. The two largest swamps in the south, the Everglades and the Okefenokee, cover an area of 500,000 square miles. The trees are very large and vegetation low. Both swamps teem with alligators and deadly moccasins.

When you are wearied from over work, feel listless or languid, or when you cannot sleep or eat, take Hollister's Rocky Mountain Tea. One of the greatest tonics known. 35 cents, tea or tablets. Smith Drug Co.

CATARRH FIRST A COLD THEN CATARRH THEN CONSUMPTION

A cold in the head is a common ailment, but it rarely ever stops there. It often grows stubborn and protracted, the mucous membranes, or inner lining of the body, become inflamed and secrete a filthy, unhealthy matter which is absorbed by the blood and soon produces that disgusting disease, Catarrh.

Then follow the unpleasant symptoms of "hawking and spitting," ringing noises in the ears, headache, poor appetite, mucus dropping back into the throat, and feeling of general debility. Every day the blood becomes more heavily loaded with these poisonous secretions, and if the trouble is allowed to run on, the lungs become diseased from the constant passage of poisoned blood through them, and then Catarrh terminates in the most dreaded and fatal of all diseases, Consumption.

The only way to get rid of Catarrh permanently is to cleanse the blood, and S. S. S. is the ideal remedy for this purpose. It soon clears the system of all impurities, purges the blood of all Catarrhal matter and poisons, and effectually checks the progress of this dangerous and far-reaching disease. S. S. S. keeps the blood in perfect order so that Catarrh cannot remain; and as this pure, healthy blood goes to every nook and corner of the body, the entire system is strengthened and invigorated, and the symptoms all pass away. Book with information about Catarrh and medical advice free.

CHAPTER XIII.—(Continued.)

"In some way word had already passed along the ridge that the sheriff was actually on the road and that he would reach the end of the railway in mid-afternoon, and a great throng was packed round a man on horseback who was good naturally trying to force his way toward headquarters.

"That's one of my scouts," said Munro, "with news of the invaders." And he pushed off into the crowd, while Raymond, with serious face and slow step, went down the path toward his mine.

"They're going to fight," he said to Kelly.

"Fight? Of course they'll fight. They'll go down and drive the sheriff out like sheep. But what then? The crazy jacks!"

"Do you think we ought to tell the women? Are they in danger?"

Kelly was reflective. "Not now. The sheriff will hardly reach the hill this time. He'll go back. The authorities and the newspapers will chew the rag for a couple of weeks, and then we'll be up against it."

"All the same, Matt, I wear my guns from this on, and one of us must stand guard at night. The camp is filling with dangerous men."

"You speak as one having authority," remarked Ann.

Two New Baseball Magnates

Charles W. Murphy, New
Owner of Chicago Na-
tional, and John I.
Taylor, President of the
Boston Americans.
Their Careers.

Two new major league baseball magnates will be on trial during the coming season, with the critical public in the jury box. They are Charles W. Murphy, recently chosen to succeed James A. Hart at the head of the Chicago Nationals, and John I. Taylor, the present owner of the charter of the Boston Americans.

On these men principally depends the success or failure of their respective teams; and they will find the public a most difficult jury to please.

Taylor had some "magnatia" experience last fall, but this year he will

CHARLES W. MURPHY.

be put to a real test. It is probable that his policy will be one conducive to good results, as he has the interests of the individual players at heart.

Few persons have risen with such bounds in baseball as Charles W. Murphy.

The newest addition to the circle that controls things baseball in this country was less than a year ago a newspaper man of Cincinnati. Years of service he spent as a historian of the game have naturally fitted him for a high executive position.

Murphy made his first plunge in baseball last spring when he was appointed assistant secretary of the New York Giants. Murphy is not the sort of man to remain in a subordinate position, and soon he had the chance to buy the controlling interest in the Cubs.

Shattering newspaper traditions, Mr. Murphy had amassed a fortune, which he saw grow bigger through judicious investment. Having ready cash and an unlimited credit, he quickly advanced the enormous sum to take over President Hart's holdings.

He was immediately made vice president of the club, and when Mr. Hart formally retired recently he was advanced to the position of president. Murphy has the business sagacity and executive ability of President Ban Johnson, who, singularly enough, was also a Cincinnati newspaper man.

The new president has strong personal magnetism, faintly fizzing over with good humor. His ability to tell a story has earned him the sobriquet of the Ezra Kendall of baseball.

When the Chicago Nationals challenged the Chicago White Sox for a post season series, friends of Murphy thought that he had made a serious mistake.

"Don't you know that the prestige of the Cubs will lose in case of defeat is too great for the risk?" they said. The result of the series showed that Murphy had not misplaced his confidence in his players. The White Sox were overthrown, and the Cubs won the championship of Chicago.

John I. Taylor is the youngest son of General Charles H. Taylor, proprietor

JOHN I. TAYLOR.

of a Boston newspaper. Young Mr. Taylor has always been an enthusiast in sports and has been one of the most consistent supporters of the American league in Boston. Mr. Taylor for several years has been a manager of the advertising department of his father's newspaper and has had a valuable business experience. He announces that no changes will be made in the management plans as given out by Henry J. Killilea, who owned the team in the past. Carl Green remains as treasurer, and Captain Jimmy Collins will have control of the playing end.

Asiatic Possessions.

Russian Asiatic possessions are three times the size of Great Britain's, but hold only 23,000,000 inhabitants, as compared with England's 287,000,000 subjects.

Champion Brokaw.

The New York Millionaire
Finally Landed National
Figure Skating Title.

Irving Brokaw, who recently won the figure skating championship of America, is a former Princeton athlete and millionaire, once famous as a runner and later as a golf player.

Brokaw's victory was a popular one, and he was cheered to the echo when he started in the final movement. The enthusiasm of Brokaw's friends began when it was seen that nothing but an accident could prevent his carrying off first honors.

There was little wonder at the enthusiasm of his friends, for this was the fifth championship. Brokaw had taken part in it. After each defeat he would assure the other competitors and his friends that he would be on hand again the next year and that they would find him a harder man to dispose of. He said he would never give up until he had won a championship, and he has kept his word.

In three meetings he finished second to Dr. A. G. Keane of the New York Athletic club, and last year he was beaten out by Edward Bassett for third place. Brokaw was ill just before the contest began last year and skated far below his usual standard. For this year's tournament Brokaw put in some hard training, and he was greatly disappointed when Dr. Keane announced that pressure of business would prevent his defending the championship title. It was then almost a certainty that Brokaw would win, although Bassett had some adherents.

The championship consisted this year of seventeen movements.

Brokaw entered Princeton with the class of 1893. He soon became famous as a quarter mile runner, and his ability on the banjo and at singing minstrel songs made him a general favorite. After leaving Princeton Brokaw did some cinder path work for the New

IRVING BROKAW EXECUTING A TOE SPIN.

York Athletic club. In recent years he has distinguished himself on the golf links. In fact, the new champion in figure skating is a first class all round athlete and sportsman.

Out of a possible 68 points Brokaw earned 64, which shows conclusively the great form in which he skated. He was easily first in thirteen events. Bassett scored 50 points, Doughty 29 and Williams 24.

JOHN CLARKSON.

Notable Exploit of the Once Great Pitcher.

There is plenty of comment going the rounds now on the once great pitcher, John Clarkson, since his recent misfortune and commitment to a Michigan asylum. There is one feature of the work in that great season of 1889, which, however, seems to have been overlooked. The schedule that year was one of 140 games, and Clarkson pitched in over half of the schedule for Boston, officiating in seventy-two games, forty-six of which were victories, nineteen defeats, two ties, two which he finished for another pitcher and no record of a defeat or victory credited against him. Keefe of New York was the next pitcher in number of games, having officiated in forty-one contests. The record of Clarkson leading the league and having pitched in over half of the games of the schedule has never been duplicated since that memorable year. For a pitcher to officiate in fifty games is now a rare occurrence indeed.

TORREY PENN'S FIELD COACH

He Selects Larrison, Reynolds and Smith as His Assistants.

Robert G. Torrey, ex-captain of the Pennsylvania football team and all American center, will be head field coach of the Penn football team next fall. This was the decision reached recently by Torrey, who has had the question under advisement since the position was offered him last fall.

Torrey has also the power of appointing his assistant coaches, and he announced Otis F. Larrison, tackle for two years on Penn and all-American tackle last fall, as his first assistant. Marshall F. Reynolds and Andrew Smith, both of the Penn 1904 team, were also appointed.

Torrey entered Penn in the fall of 1902 and played on the football team for three years. He has always been a hard student and a leader in his class.

FOURTH COMMANDMENT WORRIES YOUNG JOHN D.

Class Strikes Snag and Members Will Devote Next Sunday to Discussion of Sabbath Day.

New York, March 26.—John D. Rockefeller, Jr., started his Bible class at the Fifth Avenue Baptist church Sunday by a discussion of the Ten Commandments. Mr. Rockefeller thought one session would be enough to finish up the entire ten, but the class struck a snag on the fourth—concerning the keeping of the Sabbath day—and the others had to be put over until next Sunday.

The millionaire leader, taking up the first two commandments, said the building of images is often indulged in by business men of to-day.

"The particular image that I refer to," he said, "is that of money. It is a sad fact that many men put the accumulation of dollars above the devotion to their Creator. In worshiping the dollar we are worshiping an image. Great riches are of no avail unless we can make others happy."

Mr. Rockefeller said this with such ease that the class almost forgot for the moment that the son of the richest man in the world was talking.

Mr. Rockefeller skinned over the third commandment, touching on swearing, and then read from his

Bible the fourth commandment: "Remember the Sabbath day, to keep it holy."

"There are many ideas as to how the Sabbath day should be kept," remarked Mr. Rockefeller. "It seems to me the best way is to follow our conscience."

A man of rugged type, who announced that he worked hard in a factory all week, said he knew a lot of folks who felt it a hardship to go to church on the Sabbath after being cooped up the other six days.

"There is a doubt in my mind," remarked another pupil, "as to which day is the Sabbath."

"That is an ecclesiastical question, and we don't need to discuss it here," replied Mr. Rockefeller.

GOVERNOR OF ISLAND IS KILLED BY NATIVES

Executive of Samar Is Believed to Have Been Victim of Treacherous Band of Pulujanes.

Manila, March 26.—The body of Gov. Curry of the island of Samar, who was missing after an engagement between the constabulary and a force of Pulujanes, fanatical natives, has been found, badly hacked by his murderers. Judge Lobinger, a school teacher named Hoover and the other Americans are safe.

The constabulary report that sixteen of their number were killed and wounded. They lost more guns than they captured. They buried thirty of the Pulujanes.

Full details of the trouble have not been received, but it is believed that Gov. Curry and the constabulary attended a conference with hostile natives and received their promise to surrender. Subsequently, it is thought, the constabulary were treacherously attacked. Such treachery is rare. The Filipinos usually do not molest conferences.

Gov. Curry was formerly a cowboy in New Mexico. He served in the Spanish war as a captain in the rough riders regiment and afterward went to the Philippines as a member of the Eleventh cavalry. As chief of police of Manila he showed ability, which led to his appointment as governor of Samar.

Out of a possible 68 points Brokaw earned 64, which shows conclusively the great form in which he skated. He was easily first in thirteen events. Bassett scored 50 points, Doughty 29 and Williams 24.

Notable Exploit of the Once Great Pitcher.

There is plenty of comment going the rounds now on the once great pitcher, John Clarkson, since his recent misfortune and commitment to a Michigan asylum. There is one feature of the work in that great season of 1889, which, however, seems to have been overlooked. The schedule that year was one of 140 games, and Clarkson pitched in over half of the schedule for Boston, officiating in seventy-two games, forty-six of which were victories, nineteen defeats, two ties, two which he finished for another pitcher and no record of a defeat or victory credited against him. Keefe of New York was the next pitcher in number of games, having officiated in forty-one contests. The record of Clarkson leading the league and having pitched in over half of the games of the schedule has never been duplicated since that memorable year. For a pitcher to officiate in fifty games is now a rare occurrence indeed.
